Tatiana Ayazo/Rd.com.ShutterstockOther languages have words that mean false, sticky, or trying too hard, but only English cheese slang term can fully express something so fake that it stinks like Camembert: He came up to me in the bar with this big cheesy smile on his face and said: Does it hurt when you fell from heaven? See if you can guess the most annoying word in English. Tatiana Ayazo/Rd.com.ShutterstockSurely the conversion of the word is one of the strangest in English (which speaks a lot). According to Merriam-Webster, men who exploit prostitutes have been called pimps since the 1700s, and since then they have been dressing in showy outfits around the world. But only in English the pimp became a humorous, semi-favorable verb, that is something to restore, to make it a super-fantasy, as in the reality show Pimp My Ride. Do you think that's weird? Check out these weird slang words from the 1920s. Tatiana Ayazo/Rd.com.ShutterstockMany words on this slang list, but not this one. According to Merriam-Webster, serendipity, which means the state of finding pleasant or desirable things by accident, comes from Serendip, the ancient name of Sri Lanka. In the 18th century in Britain, the writer Horace Walpole popularized the word, referring to the folk tale of the three princes of Serendipus who always made discoveries, accidents and foresight, things they were not looking for. Sounds like serendipity to us! These beautiful words have no English equivalent. Tatiana Ayazo/Rd.com.ShutterstockI often observed that English is the easiest language to learn, but the hardest thing is to learn well... and this neat, compact expression goes a long way in explaining why. Trading is one of many English verbs that change dramatically in pair with different pretexts... and each expresses a concept that will take a whole sentence to explain in any other language: Trade, trade up, and trade down are just a few examples. But compromise is especially the American concept: what other nationalities actually have to say: You can't have it all! There is always a compromise! Start with hello. Tatiana Ayazo/Rd.com.ShutterstockThere is a lot of synonyms out there funny or silly, but it also means carefree, playful, and kind of fun. Could this be a faint echo of the evolving definition of the word? According to the Oxford English Dictionary, 500 years ago foolishly meant happy, blissful, lucky or blessed. From there it became mean innocent, or deserving of compassion, which turned into the delicious absurdity we enjoy today in silly hats, silly jokes, and perhaps best of all, Monty Python's Ministry of Stupid Walks. Here are some common words that were inspired by real people. Tatiana Ayazo sounds like average English, but according to Dictionary.com, this delightful term for incomprehensible incomprehensible in fact only the date of World War II, when American Congressman Maury Maverick (yes, in fact his name) used in a memo dated March 30, 1944, prohibiting gobbledygook language and mock menacing who uses the words activation or implementation to be shot. Apparently Maverick was thinking about a turkey gobble off. These are the funniest words in English. Tatiana Ayazo/Rd.com.Shutterstock Agreed with Dave Tabler, on the Appalachian History website, this name for rural American was brought by Scots-Irish settlers who flooded Appalachian in the 1700s. The word probably comes from two Scottish words mashed together: hill-folk and billy, which was slang for a man (just like today's guy or dude), and the term was more descriptive than dismissive. But these days, if you don't consider yourself hillbilly, don't call someone else one... or you will discover their fightin' words! And keep an eye on those 12 words with surprisingly offensive origins, too. Tatiana Ayazo/Rd.com.ShutterstockPeople hid their faces in their hands to express embarrassment, anxiety or irritation for hundreds of years (at least), but Merriam-Webster dates the term facepalm until 1996, making it the newest word on this list. Our favorite use of the word comes from the Los Angeles Review of Books in 2014: There's a kind of facepalm moment in a stunning pilot episode of Amazon Transparent's stunning new series when you realize that title pun. Tatiana Ayazo/Rd.com.ShutterstockAs Time magazine says: Before spam was a word that represented unwanted email, it was a word that represented a successful repackaging of junk meat. Introduced in 1937, SPAM was a clever way to repackage an unwanted pork shoulder incision, and the brand itself is a combination of spicy and ham invented in the naming contest. The new meaning comes from a parody of 1970s British comedy troupe Monty Python, in which a Viking group drown out all other conversations by shouting the word spam over and over again - just as a flurry of unwanted commercial emails would overwhelm everything else in your inbox. Find out the names of some very specific things that you didn't realize were names. Tatiana Ayazo/Rd.com.ShutterstockThis multifaceted word of approval is another one that started meaning one and ended up as another. According to Merriam-Webster, we have to go all the way back to the 12th century Middle English to find the first mention cooler, meaning the opposite of hot. Over the years, this idea has applied to emotions: mores that work hot or cool. In the 1920s, American jazz culture appreciated this quality of relaxed calm in music and in life, and this word became synonymous with admiration, fashion and goodness around the world. Now it's cool! Find out the origin of some of the most common English slang terms. Published: 25 February 2019 Last updated on Oct 22, 2020 want to achieve something or just improve the quality of your life. Most literature success will speak of the power of positive thinking and how important it is, but it is often easier said than done. In this article you will find 11 tips for maintaining a positive attitude no matter what happens in your life.1 You define your realityIt is important to understand that you determine your reality by how you react to the outside world. When something happens, you can choose whether it is a positive or negative situation and react accordingly. For example, if you lose your job, your first reaction will probably be one of anger, frustration and hopelessness. However, what if you were able to turn those emotions around and look at that experience as an opportunity. Now you have a chance to find a job where you can learn new skills and maybe even be happier. In the meantime, you have free time to analyze which direction you want the next stage of your life to come.2 Start your day StrongMost people have to drag themselves out of bed and this sets a negative state of mind throughout the day. Positive people create a long-term morning ritual that reinforces how big life is and how happy they are to be alive. I woke up and immediately turned Bon Jovi into This Is My Life to get me in a positive mood. Now I start my day by reading or listening to something positive. If you have 1 minute, 15 minutes, or an hour to devote your ritual, you can start the day in a way that will help you feel relaxed and ready for the day ahead. 3. Exercise is a natural Feel-Good DrugExercise is a great way to maintain a good attitude because of all the positive chemicals it releases into the bloodstream. One study found that between groups that participated in high-intensity interval training, moderate continuous training, and no exercise, those in the second group experienced the greatest drop in depressive symptoms and stress. Therefore, if you are looking to exercise to help you feel good, get your heart rate up, but don't push too hard, or you can increase overall stress. Also, remember that exercise can include many activities. If you don't like running, try dancing or kickboxing instead. Put on some upbeat music to kick up the positive vibrations even more.4. Use books, audio and videos to overload your brain with positivity there are millions of amazing books, podcasts and videos for you to absorb from people who inspire and live the life of your dreams. Click on their positive emotions and their experiences by studying how they think and what they do to create the life they want. You can do it in the morning or during a workout, eat, commute, cooking, cleaning... There's always time for Your language shapes your thoughtsInfluence changes in your language can change the way you think and how you act. Whenever someone greets you and asks how do you do, do you respond with a fine or not too bad? I think I think. just that this language communicates with others... And myself. I always answer great, fantastic or awesome. Not only does it remind me that life is really great, but it usually helps the other person move on to a positive attitude as well. Also, take some time to look at how your inner voice speaks to you. Is this language positive or negative? If this is too critical or negative, it may be time to engage in mindfulness meditation to transfer your inner critique to inner cheerleader.6 Hang out with positive peopleIt's often said that you'll have the same level of health, income and lifestyle as the five people you spend the most time with. So if you want to be fit, then start hanging out with the right people. Want to start a business? Then chat with business owners. And if you want to be positive, make sure you hang out with positive people. Show your appreciation for others By appreciating others for a job well done, their outfit, or their smile, you begin to cause a positive chain reaction. Stop complaining and focus on all the good others doing around you. Don't you feel great when you get a compliment from someone else? Well, if you want to get more, then start handing them out and watching what happens to the people around you. One particular study found that people who sent thank-you letters experienced a significant increase in happiness scores. If you don't want to write a letter, send a good text to someone who recently helped you, or send an email thanking your colleague for always helping to pick up the slack around the office. Whatever it is, it takes some time to express gratitude. 8. Garbage in, Garbage OutThis is an expression of programming where the result is only as good as the entrance. If you feed yourself a negative all day long then it's pretty obvious you'll feel negative as well. Many media outlets thrive on negativity. Put yourself on a negative diet (including people) and see how much easier it is to maintain your positive attitude.9 Stop negative thoughts in their TracksIt is difficult to be a constantly positive person, and negative thoughts will bubble from time to time. They will be more frequent at the beginning, but may decrease as you practice the tips we are talking about. When you start noticing negative thoughts, you can use the interruption pattern to stop them in their tracks. The idea is to interrupt the current thinking model and move to a more positive outlook. One way to do this is to set a visual or auditory signal. It can be something as simple as the bracelet you wear every day or the sound of a car passing outside the window. Whenever you see or hear a signal, him to transfer his thoughts to something positive. You can learn more about how to change your mindset and negative attitude in the next video:10. Live grateful so many positive things happen during our day and we often ignore them by allowing one one a comment or event to ruin our mood. This can help keep a thank you log where you write down things you are grateful for every night or during the day. If you are reading this, then you will probably live with a roof over your head and food in your stomach, which is a daily struggle for much of the world. However, we often take these things for granted and don't realize how big it is we have. Try to refocus your thoughts on everything you have, not what you don't. One study found that thinking about past experiences with a sense of gratitude can lead to an increase in both hope and happiness. That's a great reason to give it a go today. You can find more ways to practice gratitude in this article11. Recharging the Battery One key to adopting a positive attitude takes time to recharge your batteries. This can mean taking a few hours at the weekend to read a positive book or taking a few weeks to rest. If you are unable to travel, you can take a staycation, or home vacation where you just switch off from the outside world and spend time doing what you love. Ultimate ThoughtsYou now has 11 tips for maintaining your positive attitude, but they are not of any use to you if you implement them in your life. Start small, and choose the easiest advice or one you really love and introduce it into your life starting right now. Then, over time, start implementing other tips and watch your positivity soar.
